

One Workman Instantly Killed and Another Fatally Injured.

JERSEY CITY, Oct. 17.—The breaking of a guy rope which was being used in raising a stone weighing half a ton or more to the top of the steeple of St. John's Roman Catholic church, in course of erection at Van Winkle street and the Hudson county boulevard, in the Marion section of this city, resulted in the instant death of Thomas O'Neill. The shock threw him from the top of the steeple head foremost into a pile of building material a hundred feet below, and he was literally dashed to pieces.

Thomas Gibbons was also carried away by clinging to a portion of the broken rope. He struck the roof and was caught between its iron beams and fallen stones. He was unconscious when found, and blood was coming from his nose, ears and mouth. It took half an hour's labor to extricate him. At Christ hospital, to which he was removed, it was said that there is no hope of his recovery.

The men got no warning before the stone went crashing downward. O'Neill was pulled off first, Gibbons following. A third man saved himself by seizing a mortar box and clinging to it.

WRECKS IN THE PACIFIC OCEAN.

Belief That Ex-Minister Grant Has Been Lost With the Ship Ivanhoe.

SAN FRANCISCO, Oct. 17.—The gale which has prevailed along the north Pacific coast since Sunday last has undoubtedly caused widespread disaster to shipping interests. At least three schooners are known to be wrecked, and there are grave reasons for believing that the American ship Ivanhoe has been lost with all on board. There is little doubt that the Southern Pacific raft of 10,000 spars and piles, valued at \$30,000, has been broken by the elements. The news of the next few days, it is thought, will show still greater loss.

The ship Ivanhoe, coal laden, from Seattle for this port, is almost certainly lost. Captain C. E. Griffin commanded her, and she carried a crew of eighteen men. Colonel Fred Grant, one of the proprietors of the Seattle Post-Intelligencer and ex-minister to Bolivia, was a passenger on the Ivanhoe, having embarked on her to enjoy the novelty of a sea voyage. A mast and yards painted yellow and believed by seamen to be part of the rigging of the Ivanhoe, have been sighted off the Oregon coast. A floating dock house painted as was the Ivanhoe was also seen in the locality.

A REMARKABLE INVENTION.

The Claims of Simon Lake for His Submarine Boat.

BALTIMORE, Oct. 17.—A Baltimore inventor hopes to make real the imaginary voyage of Jules Verne's boat Nautilus under the sea. After years of study and experiment Mr. Simon Lake, of East Baltimore, has invented a submarine boat which his claims are capable of accomplishing what Jules Verne suggested might be possible in the imaginary voyage of Nautilus under the sea.

Mr. Luke Says "The Boat is Capable of Being Submerged to Any Depth and Again Raised to the Surface at the Will of the Operator."

It is capable of being propelled when on the surface or when submerged, or when on the bottom of the water, as required. Divers can pass from the interior of the boat to the outside and back again when on the bottom as readily as one can pass in and out of a house.

The Inventor Expects to Start Building His First Boat in a Few Weeks.

The Lake Wrecking and Submarine Navigation company has charge of the invention.

Defies His Fellow Judges.

OMAHA, Neb., Oct. 17.—Editor Rosewater, of The Bee, charged with libel by ex-Sheriff Bennett, appealed to five judges of the district court against having the case tried by Judge Scott, and the judges granted his appeal. Judge Scott, however, made an order nullifying the act of the five judges, and commands Rosewater to appear before him for trial, saying: "There is no law to take this case off my docket, and it will stay there. If there is any monkey about it some one is going to be cuffed to appear for contempt."

Fatal Fire in Houston.

HOUSTON, Tex., Oct. 17.—One of the finest business blocks here took fire at 2:40 o'clock in the morning, and before being subdued had destroyed \$400,000 worth of property, including St. Joseph's infirmary, where Sisters Doerfler and Jane were burned to death and Sister Clothilde fatally burned. There were a number of narrow escapes, and several persons were badly injured by jumping from the second story of the San Jacinto hotel.

The Car's Strength Diminishing.

ST. PETERSBURG, Oct. 17.—The Official Messenger issues a special edition containing the following bulletin, signed by Professor Leyden and Drs. Zacharin, Popoff and Boljaninoff: "The disease of the kidneys shows no improvement. His majesty's strength has diminished. The physicians in attendance hope that the climate of the south coast of China will have a beneficial effect on the health of the czar."

Five Sailors Probably Drowned.

ERIE, Pa., Oct. 17.—Fishermen report that wreckage has come ashore at Dunkirk, consisting of a life raft and buckets, all marked "Mary French." The Mary French is a tug which sailed from Erie on last Saturday for Oswego. She was spoken northeast of here Saturday afternoon, but since that time nothing has been heard of her. It is feared that she foundered in the storm. The crew consisted of five men.

THE WAR AGAINST CHINA.

Unconfirmed Report of the Capture of Port Arthur by Japanese.

SHANGHAI, Oct. 17.—It is reported that Port Arthur, the Chinese stronghold, where the fleet of China has been sitting after the loss of the fleet off the mouth of the Yalu river, has been captured by the Japanese. This dispatch, however, lacks confirmation.

A dispatch from Wifu, Corea, which was delayed in transmission, reports that the Japanese and Chinese armies are facing each other on the banks of the Yalu river, with both sides perfecting their preparations for battle. Spies report that the Chinese army is 35,000 strong. It may be that the armies have met, and that Port Arthur has been taken by the Japanese.

In Danger of Starvation.

MONTREAL, Oct. 17.—Judge Valle, the stipendiary magistrate for the north shore of the St. Lawrence, has returned to Quebec after a five months' visit to the Canadian Labrador, the island of Anticosti, and other places. He reports that the fishing along the Labrador coast has been very bad, and unless government assistance is promptly sent many deaths from starvation must occur before next winter is over. As for the coast Indians, their condition is even worse than that of the fishing colonies, the yield of their hunt this year having been very poor.

Shot Himself for Love.

PHILADELPHIA, Oct. 17.—W. E. Stauffer, a well dressed, good looking man of about 24 years, engaged a room at Dooner's hotel last evening, and five minutes afterwards shot himself in the left breast with a revolver. Stauffer registered from Ashland, O. A physician was summoned, and the young man was removed to the Jefferson hospital, where little hope of his recovery is entertained. Stauffer, who retained consciousness after the shooting, said that his act was the result of a love affair.

Pull off with starch and close serene. The linen collar stays the morning. Pull off at noon-time it is seen. All writhed, wrinkled and forlorn.

That's what you must expect of such a collar; it's the lines of it. The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS.

These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and waterproof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

Insist upon goods so marked if you expect full satisfaction, and if your dealer does not keep them, send direct to us enclosing amount and we will mail sample. State size, and whether a stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.
